Type	black
Clamping range	up to 48 mm
Price display	
Material	steel

The position (angle) and depth to the stand tube of the tilting 300 x 200 mm sheet music holder is adjustable. The music desk has a depth of 30 mm. The flexible clamp makes it easy to mount the holder in a wide variety of directions. The clamp can be attached to tables (0 to 48 mm thickness). The sturdy metal frame of the clamp is equipped with high-quality plastic inserts and the non-slip coating ensures that the clamp provides a secure and powerful hold. Thanks to the specially formed clamping surface, the clamp can be used on flat surfaces such as tables or shelfing, as well as on round tubing. The holder is collapsible for easy transport.
