26125

Microphone stand

Product variant

26125-300-55 - black

Technical Data

Base diameter	275 mm
EAN	4016842823512
Height	from 1,000 to 1,700 mm
Height adjustment	clutch
Leg construction	round base
Material	steel
Quality level	
Rod combination	2-piece folding design
Special features	stable, lightweight metal round base with plastic cover; full circle anti-vibration rubber damping ring for noise filtration; large support area provides great stability
Threaded connector	3/8"
Type	black
Weight	3.36 kg

Perfect presentation and function: this heavy duty, large round base microphone stand is impressive both for the studio and on stage. The robust and tall tubing combination with the slim clutch provide a very tight and secure connection. A full circle anti-vibration rubber damping ring prevents unwanted floor vibration impacting the sound. The formidable base scores additional points for its clean design, visually appealing plastic covering and advanced functionality - and the integrated metal plate makes the stand extraordinarily stable. In addition, due to the extremely solid and stable base, an extendable boom arm can also be installed on the stand.
