Height adjustment	spring-loaded clamping knob
Material	steel stand, tabletop MDF
Max. load capacity	66.139 lbs
Special features	levelling end cap to stabilize the stand on uneven surfaces; flat and user-friendly package
Type	black
Weight	12.2 kg

Professional DJ table for stationary and mobile use. The spacious tabletop with dimensions of 43.307 x 17.913" provides room for a wide range of studio and DJ equipment. Thanks to the four quick-release clamps, the tabletop can be mounted or removed quickly and easily. The robust frame made of steel tubes provides the necessary stability. In addition, an adjustable end cap guarantees a wobble-free stand. The height can be adjusted in 1.181" steps from 23.819 to 41.5035" by means of spring-loaded locking bolts. For mobile use, the two base frames and the support tubes can be dismantled and, together with the frame and the top, offer a flat and user-friendly package.
