With the attractive Guitar Station, every guitar is perfectly staged - whether at home or in the studio. Thanks to the flexibly adjustable and rubber-coated mounting brackets and a usable height of 980 mm, the Guitar Station (M) is suitable for most acoustic and electric guitars. (For basses and longer "bodies" we offer alternatively the model 17640). The solid metal construction features a sleek design with a high-gloss powder coat finish. The curved base plate with five protective felt pads ensures a secure stand.
