## Tiltable clamping desktop monitor stand

### Product variant

26778-000-55 - black

### Data

|                      |  |
|----------------------|--|
| Angle of inclination | 0° to 12.5°  |
| Bearing plate        | 230 x 250 mm   |
| Clamping range       | 10 to 52 mm  |
| EAN                  | 4016842103409  |
| Height               | from 335 to 435 mm   |
| Height adjustment    | continuous   |
| Leg construction     | flat steel plate   |
| Material             | steel  |
| Max. load capacity   | 25 kg  |
| Product Category     | Topline  |
| Special features     | 4 rubber pads for bearing plate provide for stability and noise filtration; bearing plate can be moved to optimize the center of gravity and rotated by 180°; stop bar prevents the monitor from slipping down |
| Type                 | black  |
| Weight               | 3.1 kg   |

Height-adjustable monitor stand with table clamp for near-field monitors. The solid metal construction with the large support plate (230 x 250 mm) is suitable for a wide range of monitors and other equipment in this size range. The plate can be tilted continuously up to 12.5° and moved to optimise the centre of gravity. A stop bar ensures the necessary safety and prevents the monitor from slipping. The practical table clamp enables attachment to tabletops with a thickness of 10 to 52 mm. The individual height can be adjusted in 4 steps between 335 and 435 mm. In terms of load capacity, a centric load of up to 25 kg is possible. The support plate can be rotated 360° for perfect alignment. Rubber pads are included for secure, noise-insulating support of the monitors.
