Spindle Drummer?s Throne

Product variant

14038-000-02 - black imitation leather

Data

Base diameter	540 mm
EAN	4016842115518
Gewicht	6.6 kg
Height	from 465 to 670 mm
Height adjustment	Rotary spindle
Leg construction	double-braced 3-leg base
Material	steel
Quality level	Topline
Seat	imitation leather, size 430 x 390 mm
Type	black imitation leather

This drummer's throne is comfortable, convenient and solidly manufactured. The ergonomically shaped and elaborately upholstered seat with artificial leather cover balances superior posterior support and freedom of motion. The height adjustment is carried out by a robust rotary spindle. A two-piece plastic-lined clamp fixes the desired seat height. The continuous height adjustment ranges from 465 to 670 mm. A solid clamp connects the seat with the rotating spindle. The upper part remains rotatable even in fixed state, without self-adjustment of the spindle. The three double-braced legs and large rubber feet guarantee a stable stand. The matching carrying case 14003 is optionally available.
