

11900

Sound insulation stand

Product variant

11900-000-55 - black

Technical Data

Connection stand/shield	prismatic »V-block« connector
Visibility	
Leg construction	socket with foldable legs
Rod combination	2-piece folding design
Dimensions shield	450 x 240 mm
Special features	can be used on both sides (concave, convex)
Base diameter	670 mm
Type	black
Material	stand steel, acrylic glass shield
Price display	
Height	from 900 to 1,400 mm

In keeping with the European Union directive on noise abatement aimed at orchestras, the concave acrylic glass shield provides hearing protection for the musician stationed in front of other performers. The stand can be used on both sides, depending on requirements. The stable tripod construction affords safe usage and a long product life. The shield's practical prismatic »V-block« connector makes it quick and easy to connect to the stand.
