

11903

Protective shield with stand

Product variant

11903-000-55 - black

Technical Data

Rod combination	2-piece folding design
Type	black
Price display	
Visibility	
Leg construction	socket with foldable legs
Connection stand/shield	prismatic »V-block« connector
Height	from 1,075 to 1,600 mm
Base diameter	685 mm
Dimensions shield	600 x 600 mm
Material	stand steel, acrylic glass plate

The flexible and mobile stand for increased protection against infection. In the music sector, it is suitable for use in orchestras and choirs. The transparent acrylic glass plate has a size of 600 x 600 mm. Thanks to the proven König & Meyer prismatic connector, the plate can be quickly and easily separated from the stand. The height adjustment, measured from the top edge, ranges from 1075 to 1600 mm. The robust tripod stand can be compactly folded for transport.
