Extremely stable and robust dulcimer stand. The height of the tubular steel construction can be adjusted from 700 to 1,050 mm. For a wobble-free stand, the foldable four-legged construction is equipped with a floor levelling screw. The instrument holder with clamp offers space for instruments with a depth of 453 to 658 mm and a continuous variable tilt up to 83° for an optimal playing position. Wide felt strips protect the instrument from damage. For transport, the stand can be folded simply and easily. The sheet music holder 11515 is optionally available.
