18997

Keyboard stand

Product variant

18997-000-55 - black

Technical Data

Adjustment	clamping lever for quick adjustment
EAN	4016842114788
Height	from 594 to 946 mm
Instrument support	non-marring slip-proof pad
Material	aluminum
Max. load capacity	50 kg
Quality level	
Shape	double-braced x-stand
Special features	extremely lightweight; adjustable end cap to stabilize the stand on uneven surfaces
Support depth	350 mm
Support width	from 327 to 789 mm
Type	black
Weight	2.45 kg

This X-stand made of aluminum is lightweight and yet extremely stable. The arrangement of the double-braced stand tubes provides noticeably more stability and safety. The ergonomic clamping lever allows a quick and easy mounting or folding in no time at all. The sturdy metal joint is finely interlocked and adjustable in 5° steps enabling several different positions. With the help of a scale you can quickly find your preferred position again. The two rear rubber end caps can be moved axially and can therefore be perfectly adapted to the width of the keyboard. The maximum support depth is 350 mm. The typical quality features of K&M such as solid workmanship, high-quality finish and an adjustable rubber end cap for uneven floors complete the overall concept. The attachment 18941 offers the possibility to extend the stand for a second keyboard.
