Extremely stable and robust special stand designed for mixing desks, amplifiers and several other applications. The height of the tubular steel construction can be adjusted from 700 to 1,050 mm. For a wobble-free stand, the foldable four-legged construction is equipped with a floor levelling screw. The instrument holder with clamp offers space for instruments with a width of 453 to 658 mm and a continuous variable tilt up to 83° for an optimal operating position. The support depth is 310 mm. Wide felt strips protect the instrument from damage. For transport, the stand can be folded up simply and easily.
