

## 21450 Speaker stand

### Product variant

21450-000-30 - anodized aluminum

### Technical Data

|                     |                                                                                                 |
|---------------------|-------------------------------------------------------------------------------------------------|
| Max. load capacity* | 40 kg                                                                                           |
| Special features    | easy-to-use clamping levers;<br>adapter sleeve 21326 included                                   |
| Type                | anodized aluminum                                                                               |
| Visibility          |                                                                                                 |
| Size when folded    | 1,060 mm                                                                                        |
| Rod combination     | 2-piece folding design                                                                          |
| Height              | from 1,270 to 1,930 mm                                                                          |
| Number of legs      | 3                                                                                               |
| Leg construction    | tube legs with cross braces                                                                     |
| Base diameter       | 1.150 mm                                                                                        |
| *                   | With centric loading, on a horizontal surface<br>and without lateral forces (wind, shocks etc.) |
| Price display       |                                                                                                 |
| Material            | aluminum                                                                                        |
| Quality level       |                                                                                                 |
| Height adjustment   | clamping lever and safety pin                                                                   |
| Tube end(s)         | diameter 35 mm                                                                                  |

An easy-to-carry speaker stand made of high quality aluminum. Fiberglass-reinforced fittings and an additional safety pin ensure stable support for the speakers. The height and feet adjust by an easy-to-use clamping lever.
