21472

Speaker stand XL

Product variant

21472-000-55 - black

Technical Data

*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Base diameter	1.558 mm
EAN	4016842115068
Height	from 1,580 to 2,474 mm
Height adjustment	locking screw with push-button system
Leg construction	tube legs with cross braces
Material	aluminum
Max. load capacity*	50 kg
Number of legs	3
Quality level	
Rod combination	2-piece folding design
Size when folded	1,302 mm
Special features	patented gradual height adjustment system; integrated shock absorber; mounting aid included
Tube end(s)	diameter 35 mm
Type	black
Weight	3.87 kg

The XL version among the speaker stands. Sturdy and stable and completely made of aluminum tubes. Solid base tubes with 35 mm diameter and large rubber end caps guarantee a stable and secure stand. In comparison to a "normal" speaker stand the root circle is much larger and amounts to remarkable 1,558 mm. The max. height reaches 2,474 mm and thus offers versatile application possibilities. The clamp equipped with the push-button system enables a user-friendly height adjustment of the stand. The clamping screw provides additional stability and vibration-free hold of the speaker. Further special features are the pull-out guard for the extension tube, the integrated shock absorber and a mounting aid for the speaker cabinets. The stand is foldable for easy transport. The stand can be turned into a lighting stand with suitable accessories.
