KÖNIG & MEYER
Stands For Music

26778

Tiltable clamping desktop monitor stand

Product variant

26778-000-55 - black

Technical Data

Angle of inclination	0° to 12.5°
Bearing plate	230 x 250 mm
Clamping range	6 to 52 mm
EAN	4016842103409
Height	from 335 to 435 mm
Height adjustment	locking screw and safety hook
Leg construction	flat steel plate
Material	steel
Max. load capacity	25 kg
Quality level	
Special features	4 rubber pads for bearing plate provide for stability and noise filtration; bearing plate can be moved to optimize the center of gravity and rotated by 180°; stop bar prevents the monitor from slipping down
Type	black
Weight	3.18 kg

Height-adjustable monitor stand with table clamp for near-field monitors. The solid metal construction with the large support plate (230 x 250 mm) is suitable for a wide range of monitors and other equipment in this size range. The plate can be tilted continuously up to 12.5° and moved to optimise the centre of gravity. A stop bar ensures the necessary safety and prevents the monitor from slipping. The practical table clamp enables attachment to tabletops with a thickness of 6 to 52 mm. The individual height can be adjusted in 4 steps between 335 and 435 mm. In terms of load capacity, a centric load of up to 25 kg is possible. The support plate can be rotated 360° for perfect alignment. Rubber pads are included for secure, noise-insulating support of the monitors.
