*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Max. load capacity*	35 kg
Price display	
Quality level	
Tube end(s)	diameter 35 mm, threaded bolt 3/8" x 12 mm
Material	steel
Height	from 950 to 1,450 mm

Elegant floor stand with large, flat cast-iron round base for near-field monitors and loudspeakers. The solid steel construction impresses with its stability and holds speakers and monitors securely in the desired position. The 205 x 245 mm support plate is simply screwed onto the 3/8" threaded connection. It can also be used to mount speakers and monitors directly, as well as mounting plates from Genelec and other manufacturers. For optimal listening height, 50 mm steps can be set between 950 and 1450 mm. The slim clamp with safety hook is easy and comfortable to use. A load capacity of 35 kg is possible when the load is centred. Four threaded spikes and four self-adhesive rubber studs are included for acoustic decoupling.
