Technical Data

Height	50 mm
Visibility	
Special features	with threaded bolt M10
Type	black
Price display	
Material	steel
Base diameter	352 mm

The robust cross base guarantees sturdiness for floor spotlights. The stand is collapsible and is ready for transport in a snap. Additional tools are not required. The end caps are made of rubber and protect the floor from scratches. Mounting the spotlight with the bracket is fast and easy by attaching the handy star knob nut to the M10 threaded bolt.
