Tablet PC holder bundle

Product variant

23874-000-55 - black

Technical Data

Angle of inclination	-90° to 85°
Clamping range	up to 85 mm
EAN	4016842119295
Height adjustment	pneumatic spring
Material	Monitor mount aluminum, Tablet PC stand holder Bio-based plastic
Max. load capacity	8 kg
Special features	also suitable for tablets in cases or protective covers; tablet size ~10"-16"; freely rotates 360°; continuously height adjustment of 200 + 350 mm; internal cable routing possible
Swivel	180 °
Type	black
Weight	3.4 kg

The comfortable solution for your workplace or home studio. With this table mount you can position a tablet with a size of 10" to approx. 16" in a space-saving and ergonomic way. The robust aluminum construction with the integrated pneumatic spring can bear a load of up to 8 kg. The tablet mount is made of bio-based plastic. These plastics contain a proportion of over 50% up to 100% of renewable plant-based raw materials. The use of renewable raw materials helps to conserve limited petroleum resources and reduce harmful CO2 emissions. More information on bio-based plastics at: bioplastic.k-m.de. The clamping range of the tablet stand holder is between 158 and 280 mm. The holder is also particularly suited for tablets with a protective cover or case up to 18 mm thickness. The overlapping clamping jaws with integrated rubber pads provide for a secure hold and eliminate unwanted vibration noises. The function of the operating elements on the device is not impaired. An adjustable mounting bracket with felt padding provides additional safety when the tablet holder is positioned vertically and prevents the tablet PC from falling

out even under heavy use. The holder can be swiveled and tilted, allowing each user to position it individually. The swivel movement can be adjusted from easy to tough via a clamping screw. The tablet holder can be rotated between portrait and landscape format without further ado, whereby independent turning is prevented. For a neck-friendly posture and a perfect viewing angle, the tablet holder can be continuously tilted, rotated and swiveled. Thanks to the large stable table clamp (up to 85 mm thick), the complete holder is quickly mounted and can be used as desired. Here, a height adjustment of up to 200 mm is possible. The upper arm offers an additional 350 mm of height adjustability. The integrated cable management also ensures a tidy and professional impression.
