

26722 Monitor stand

Product variant

26722-000-55 - black

Technical Data

Visibility

Rod combination	2-piece folding design
Height	from 677 to 1,132 mm
Bearing plate	280 x 320 mm
Special features	internal cable routing possible; support plate with rubber bumps; for stationary use

Number of legs	3
Leg construction	firmly screwed-in base tubes
Type	black
Height adjustment	locking screw and safety hook
Base diameter	690 mm
*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Max. load capacity*	35 kg
Price display	
Quality level	
Material	steel

Functional floor stand for near-field monitors and speakers. The solid and well-designed steel construction impresses with its enormous stability and holds your speakers securely in the desired position. The flat tripod construction with large rubber pads ensures acoustic decoupling and a wobble-free stand. The support plate with self-adhesive rubber bumps measures 280 x 320 mm. For the optimal listening height, you can choose six levels between 677 and 1132 mm. The slim clamp with safety hook is easy and comfortable to use. Alternatively, the cables can be routed inside the tube (without connector). A load capacity of 35 kg is possible when the load is centred.
