

21447

Distance rod »Ring Lock«

Product variant

21447-000-55 - black

Technical Data

Visibility

Special features patented expanding mandrel system »Ring Lock«;
vibration-free connection due to moveable plastic splints;
for precise and vertical fit

Height 245 mm

Type black

Price display

Max. load capacity 35 kg

Material steel

Tube end(s) »Ring Lock« diameter 35 to 37 mm,
threaded bolt M20

Short steel tube for connecting satellite systems. Top with unique, patented expanding mandrel for a tight and backlash-free fit of the speaker. The plastic expansion jaws ensure a low-resonance connection between speaker and tube. Easy handling by means of clamping ring. Bottom with M20 threaded bolt for screwing into mounting plate 24116.
