Stands For Music

24654

Lighting/Speaker stand »Pro«

Product variant

24654-000-55 - black

Technical Data

*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Base dimensions	550 x 550 mm
EAN	4016842122721
Height	from 1,420 to 2,420 mm
Height adjustment	spring-loaded bolt and locking screw
Leg construction	flat steel plate
Material	steel
Max. load capacity*	30 kg
Quality level	
Rod combination	2-piece folding design
Special features	includes two height-adjustable feet for exceptional stability on uneven surfaces; integrated shock absorber; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod
Tube end(s)	diameter 35 mm, integrated threaded bush M10 for crossbars
Type	black
Weight	17.4 kg

Attractive stand for lights and loudspeaker cabinets. Thanks to the heavy, flat steel plate (550 x 550 mm), the stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the pole. In addition to the centric and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management system and four stable feet are further useful atures. Two of the feet are also height-adjustable, allowing continuous compensation for uneven floor surfaces of up to 3.5 mm. This ensures exceptional stability and a perfectly wobble-free setup at all times. The usable height is between 1,420 and 2,420 mm and can be reached in 5 steps of 200 mm. The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The integrated M10 threaded bush enables the attachment of a truss or the direct attachment of lights. The maximum centric load capacity with full extension is 30 kg.
