Stands For Music

26727

Speaker stand »Pro«

Product variant

26727-000-55 - black

Technical Data

*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Base dimensions	550 x 550 mm
EAN	4016842122967
Height	from 1,110 to 1,810 mm
Height adjustment	spring-loaded bolt and locking screw
Leg construction	flat steel plate
Material	steel
Max. load capacity*	50 kg
Quality level	
Rod combination	2-piece folding design
Special features	includes two height-adjustable feet for exceptional stability on uneven surfaces; integrated shock absorber; mounting aid included; gradual height adjustment system: depending on the requirements, there are three ways to position the distance rod
Tube end(s)	diameter 35 mm
Type	black
Weight	16.4 kg

Our strongest speaker stand with space-saving base plate. Thanks to the heavy, flat steel plate (550 x 550 mm), the stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the pole. In addition to the centric and off-center position, the tube combination can also be mounted in the corner. A carrying handle, a cable management system and four stable feet are further useful features. Two of the feet are also height-adjustable, allowing continuous compensation for uneven floor surfaces of up to 3.5 mm. This ensures exceptional stability and a perfectly wobble-free setup at all times. The usable height is between 1,110 and 1,810 mm and can be reached in 4 steps of 175 mm. The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The maximum centric load capacity with full extension is 50 kg.
