--------	------------------------

Special features	includes two height-adjustable feet for exceptional stability on uneven surfaces; mounting aid included; integrated shock absorber; gradual height adjustment system; depending on the requirements, there are three ways to position the distance rod
------------------	--

Tube end(s)	diameter 35 mm
-------------	----------------

Base dimensions	406 x 406 mm
-----------------	--------------

Attractive speaker stand with flat steel plate (406 x 406 mm), useful carrying handle, cable management and four sturdy feet. Two of the feet are also height-adjustable, allowing continuous compensation for uneven floor surfaces of up to 3.5 mm. This ensures exceptional stability and a perfectly wobble-free setup at all times. The stand is ideal for use where space is at a premium. Depending on requirements, there are three ways to position the stand column. In addition to the centric and off-center position, the rod combination can also be mounted in the corner. The height is fixed with a safety hook and secured with a low-noise, backlash-free clamping screw. The slim design of the clamp enables space-saving transportation and ensures a stylish appearance. The usable height is between 1,110 and 1,810 mm and is adjusted in 4 steps of 175 mm. The maximum load capacity when fully extended is 18 kg.
