

21436 Speaker stand

Product variant

21436-009-55 - black

Technical Data

Max. load capacity*	40 kg
Rod combination	2-piece folding design
Visibility	
Number of legs	3
Special features	lightweight stand; patented gradual height adjustment system; integrated shock absorber; steel extension tube; mounting aid included
Leg construction	tube legs with cross braces
Type	black
Base diameter	1.150 mm
*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Height adjustment	locking screw with push-button system
Price display	
Material	aluminum
Height	from 1,440 to 2,230 mm
Quality level	
Tube end(s)	diameter 35 mm
Size when folded	1,150 mm

The standard speaker stand constructed from aluminum has been significantly improved. The new legs with a tubing diameter of 35 mm and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces, and prevent scratching of the finish. A compact clamp with a push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube and an integral anti-shock component.
