Peg base

Product variant

17716-000-55 - black

Technical Data

Visibility	
Special features	feet are locked in the end position
Accommodation of	4 instrument pegs
Number of legs	3
Size when folded	198 x 25 x 68 mm
Type	black
Price display	
Material	steel
Base diameter	352 mm

The low tripod stand serves as a base for all instrument pegs from the K&M range. The robust and durable steel construction with swivel legs ensures a stable, wobble-free stand, even on stages and in narrow orchestra pits. The feet are locked in the end position to prevent accidental movement. Up to 4 instrument pegs can be attached. The practical stand can be quickly and compactly folded for transport.
