Price display	
Seat	imitation leather, diameter 340 mm
Leg construction	4-legged frame

This elegant guitar stool is made of solid wood and finished in a natural color. The comfortable black imitation leather cushion has a diameter of 340 mm and can be rotated 360°. Four sturdy wooden legs with felt glides ensure a firm footing and protect your parquet flooring. The total height is 620 mm, and the wraparound footrest allows you to play music in a relaxed position.
