The 21010 with its exclusive swivel joint is the “load carrier” among microphone stands. The rock-solid stand, equipped with heavy full metal feet, reaches an adjustable height of 1,030-1,730 mm and impresses with its exceptional stability. The specially designed swivel joint, with the world-renowned T-bar locking screw, offers excellent stability even with heavy studio microphones and holds its set position even after hours. The boom arm measures between 420 and 730 mm over its entire length.
