The flexible and mobile stand for increased protection against infection. In the music sector, it is suitable for use in orchestras and choirs. The transparent acrylic glass plate has a size of 600 x 600 mm. Thanks to the proven König & Meyer prismatic connector, the plate can be quickly and easily separated from the stand. The height adjustment, measured from the top edge, ranges from 1075 to 1600 mm. The robust tripod stand can be compactly folded for transport.
