Versatile LED music stand light with rechargeable battery for mobile use. Thanks to the 2 flexible goosenecks with 2 LEDs each, the light beams can be positioned individually. The energy-efficient LEDs also offer a long service life of up to 100,000 hours. The practical clip (up to 25 mm) allows attachment to music stands, tabletops, etc. Use as a table lamp is also possible. For mobile use, the goosenecks can be folded compactly. The Li-Ion battery with 3.7 V/1000mAh is fully charged in 160 minutes and produces a bright pleasant light for about 14 hours. A USB charging cable is included in the delivery.
