Whether at home, in the studio, or on stage, this electric guitar performer stand offers comfort and security. The stand also provides practical assistance for those with back problems. Non-slip surfaces ensure that the guitar is held securely in place. The stand can be adjusted to the perfect height, angle, and tilt for ideal playing position. The slotted support surface allows cable routing for guitars with side cable outputs, such as Gibson Les Paul and other models. The adjustable height ranges from 748 to 1,264 mm, and the clamp width ranges from 39 to 60 mm.
