| Material | steel |
| Number of legs | 3 |
| Size when folded | 198 x 25 x 68 mm |
| Special features | feet are locked in the end position |
| Type | black |

The low tripod stand serves as a base for all instrument pegs from the K&M range. The robust and durable steel construction with swivel legs ensures a stable, wobble-free stand, even on stages and in narrow orchestra pits. The feet are locked in the end position to prevent accidental movement. Up to 4 instrument pegs can be attached. The practical stand can be quickly and compactly folded for transport.
