Quality level	Starline
Rod combination	2-piece folding design
Special features	integrated shock absorber; gradual height adjustment system
Tube end(s)	diameter 35 mm, integrated threaded bush M10 for crossbars
Type	pure white

Attractive stand for lights and loudspeaker cabinets. Thanks to the heavy, flat steel plate (550 x 550 mm), the stand is ideal for use where space is at a premium. A carrying handle, a cable management system and four stable feet are further useful features. The usable height is between 1,420 and 2,420 mm and can be reached in 5 steps of 200 mm. The tried and tested K&M clamping screw and the robust locking bolt are used for fixing. The integrated M10 threaded bush enables the attachment of a truss or the direct attachment of lights. The maximum load capacity with full extension is 30 kg.
