| Weight               | 5.5 kg   |

Round base with diameter of 250 mm and circumferential rubber ring for floor protection. Powder-coated tubular steel. The plastic drip cup is located at a height of 1020 mm and can be removed for cleaning. The stable dispenser holder made of powder-coated metal is hygienically easy to clean. The automatic dispenser allows the touch-free dispensing of the sanitizer and thus ensures germ-free hands quickly and reliably. An integrated spray nozzle is provided for the use of sanitizer liquids. The integrated refillable bottle has a large filling capacity of 1000 ml and is enough for more than 1500 uses. Operates with batteries (not included). Fixing material for mounting on the stand is included in the delivery. Please note that the stand is not a medically certified product. Disinfectant is not included in the delivery.
