

New Keyboard Stands-Accessories by König & Meyer

König & Meyer is again extending its accessories range for our keyboard stands.

Firstly the company is introducing the iPad Holder 18816 for the keyboard tables 18810 »Omega«, 18950 and 18953.

Secondly the »Spider Pro« is being supplemented by the Sheet Music Holder 18874 and iPad Holder 18875 and these are in addition to the already available add-on support arms, the laptop rest and microphone boom. The iPad holder and the music holder for the »Spider Pro« models 18860 and 18840 are simple to attach to the central column of the keyboard stand.

The new additional versatility and expandability make the »Omega«, the 18950/53 keyboard tables and »Spider Pro« flexible and customisable workstations.

18816 iPad holder

This iPad holder is for the keyboard tables 18810 »Omega«, 18950 and 18953. The holder is attached either directly or by means of an adapter (18814 or 18954) to the keyboard table (18950 or 18953). The holder can be height adjusted (7 positions) and the distance from the table is also freely adjustable. The iPad (2nd, 3rd or 4th generation) is easy to clip in and out of the holder. Tilt is adjusted with an ergonomic clamping screw. The iPad can of course be turned to either the vertical or horizontal position and slip is prevented.

18875 iPad holder for »Spider Pro«

The exclusive iPad holder for the Spider Pro models 18860 and 18840 is simple and convenient to attach to the column of the keyboard stand. The stable holder can be adjusted to any height using the ergonomic clamping lever. The tilt, distance and direction of the holder are adjusted with 2 clamping screws. The iPad (2nd, 3rd or 4th generation) is simple to clip in or out of the holder. The iPad can of course be turned to either the vertical or horizontal position and slip is prevented.

18874 Sheet music holder for »Spider Pro«

The exclusive sheet music holder for the Spider Pro models 18860 and 18840 is easy and convenient to attach to the column of the keyboard stand. The stable stand can be freely height adjusted by means of the ergonomic clamping lever. The angle of inclination is safely fixed in a stable position with the toothed hinge. The sheet music holder can be positioned at any distance or direction using the clamping screw. As with a standard sheet music stand, it is simply folded for transport.
