

## 18930

# Keyboard stand

### Product variant

18930-070-55 - black

### Technical Data

|                    |                                                              |
|--------------------|--------------------------------------------------------------|
| Height             | from 23.23 to 37.20"                                         |
| Visibility         |                                                              |
| Special features   | adjustable end cap to stabilize the stand on uneven surfaces |
| Support width      | from 12.99 to 31.10"                                         |
| Max. load capacity | 110.231 lbs                                                  |
| Support depth      | 13.78"                                                       |
| Size when folded   | 40.16 x 4.02 x 20.47"                                        |
| Type               | black                                                        |
| Shape              | X-stand                                                      |
| Adjustment         | clamping lever for quick adjustment                          |
| Price display      |                                                              |
| Quality level      |                                                              |
| Material           | steel                                                        |
| Instrument support | non-marring slip-proof material                              |

The new generation of X-Stands is comfortable and convenient. The ergonomic clamping mechanism makes setup or break down easy and fast. The robust metal joint can be adjusted in 5° intervals; the short intervals provide the user with a multitude of positions. With the assistance of a scale the user is able to easily find his preferred setting. Both of the back rubber end caps can be adjusted on their axis and as such can be adjusted perfectly to the width of the keyboard. The maximum support depth is 13.78". The typical K&M quality characteristics, such as solid workmanship, high quality surface finishes and practical end caps to stabilize the stand on uneven surfaces complete off the overall concept.
