Material	aluminum
Quality level	
Special features	to store synthesizers and other devices up to a depth of 15.748"; with integrated handle; 4 rubber pads included; integrated edge protectors
Type	black
Weight	1.34 kg

The sturdy aluminium plate enables new applications for the »Spider Pro« keyboard stand. By placing the tray on the upper tilted support arms, synthesizers and other devices up to a depth of 15.748" can now be used. For this purpose, the arms are extended to the fourth position. The integrated carrying handle can also be used for cable management. The equipment stop with edge protection and the enclosed rubber pads protect your devices. The tray measures 30.63 x 14.188" and is also extremely light with 2.863 lbs.
