

28130 Amp stand

Product variant

28130-011-55 - black

Technical Data

Angle of inclination	15° to 28°
Visibility	
Special features	with a 3/8" or 5/8" threaded connection for attaching a microphone boom; folds very small; support arms with non-marring rubber
Support width	from 13.78 to 20.87"
Number of legs	3
Leg construction	tube legs with cross braces
Type	black
Price display	
Max. load capacity	77.162 lbs
Size when folded	4.80 x 3.39 x 23.70"
Material	steel
Support depth	from 11.02 to 15.16"
Suitable for	amplifiers, monitors and speakers
Height	from 22.44 to 38.98"
Support	non-marring material

The amp stand can hold monitors, amps or other equipment to a max. weight of 77.162 lbs without a problem. The angled front legs have significantly improved the stand's stability and strength. The low centre of gravity ensures even larger amps are securely displayed. The fine adjustment on the supporting leg allows a tilt between 15° and 28°. A microphone can be attached to the telescopic tube using a boom arm with a thread of either 3/8" or 5/8". Folds compactly.
