Base dimensions	9.84 x 7.95"
Type	black
Height adjustment	clutch
Price display	
Threaded connector	5/8"
Leg construction	flat steel plate
Boom arm	2-piece telescopic design
Material	steel

Compact, space-saving microphone stand for bass drums, AMPs, Cajons, etc. The flat, stable stand slides for example under a bass drum, an AMP or Cajon and is a good choice wherever a tripod stand might be too bulky. Thanks to the easy height adjustment and the extendable boom arm, the microphone can be adjusted individually and precisely. Four elastic rubber feet absorb impact sound and reduce unwanted transmission noise.
