Type black

Price display

Base diameter 5.39"

Threaded connector 5/8"

Material steel

Height 5.98"

Interesting Perspective! Affordable table microphone-stand in a new attractive form, compact and practical. The low stand with its distinctive trilobular base (triangle form) holds the microphone reliably and securely in place. The circular rubber insert ring filters foot step sounds, reduces the transmission of unwanted sounds and provides a non-slip vibration-free stand.
