

21435 Speaker stand

Product variant

21435-177-55 - black

Technical Data

Visibility

Rod combination 2-piece folding design

Number of legs 3

Special features patented gradual height adjustment system;
integrated shock absorber;
adapter sleeve included

Leg construction tube legs with cross braces

Max. load capacity* 110.231 lbs

Base diameter 45.28"

Type black

***** With centric loading, on a horizontal surface
and without lateral forces (wind, shocks etc.)

Height adjustment locking screw with push-button system

Price display

Height from 56.69 to 87.80"

Quality level

Material steel

Tube end(s) diameter 1.378"

Size when folded 45.28"

The standard speaker stand constructed from steel tubing has been significantly improved. The new legs with a tubing diameter of 1.378" and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces and prevent scratching of the finish. A compact clamp with a push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube, the mounting aid and an integral anti-shock component.
