

21436 Speaker stand

Product variant

21436-177-55 - black

Technical Data

Max. load capacity*	88.185 lbs
Visibility	
Rod combination	2-piece folding design
Number of legs	3
Special features	lightweight stand; patented gradual height adjustment system; integrated shock absorber; steel extension tube; adapter sleeve included
Leg construction	tube legs with cross braces
Base diameter	45.28"
Type	black
*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Height adjustment	locking screw with push-button system
Price display	
Material	aluminum
Height	from 56.69 to 87.80"
Quality level	
Tube end(s)	diameter 1.378"
Size when folded	45.28"

The standard speaker stand constructed from aluminum has been significantly improved. The new legs with a tubing diameter of 1.378" and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces, and prevent scratching of the finish. A compact clamp with a push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube and an integral anti-shock component.
