#### Visibility

|                     |                                                                                                 |
|---------------------|-------------------------------------------------------------------------------------------------|
| Max. load capacity* | 44.092 lbs                                                                                      |
| Rod combination     | 3-piece folding design                                                                          |
| Height              | from 62.60 to 158.46"                                                                           |
| Leg construction    | tube legs with double cross braces                                                              |
| Tube end(s)         | diameter 1.181", integrated threaded bush<br>M10 for crossbars                                  |
| Number of legs      | 3                                                                                               |
| Type                | black                                                                                           |
| Height adjustment   | non-scratching locking screws                                                                   |
| Special features    | adjustable up to 4 m;<br>additional safety rings                                                |
| *                   | With centric loading, on a horizontal surface<br>and without lateral forces (wind, shocks etc.) |
| Size when folded    | 59.06"                                                                                          |
| Base diameter       | 51.18"                                                                                          |
| Price display       |                                                                                                 |
| Quality level       |                                                                                                 |
| Material            | steel                                                                                           |

Extending to over 157", this lighting stand is for professional use. The new zinc die-cast clamps and the larger steel leg tubing give this top of the range stand more stability. The infinitely variable non-marring height adjustment can be reinforced with two safety rings. A variety of crossbars may be attached using the M10 thread adaptor.
