Material	steel
Suitable for	flat screens from 42" to 65"
Type	structured black

A high degree of stand stability and easy handling are the special characteristics of this impressive screen/monitor stand. The universal mount allows one to set up according to the VESA Standard for 42" to 65" flat screens. Two strips are screwed to the back of the screen/monitor, which is then attached to the wall mount. The large tubing saves space by providing a place to organize and store the cables. The height can be adjusted in steps using an ergonomic height adjustment screw. The integrated adjustable feet stabilize the stand on uneven surfaces, providing for stability.
