Special features	rotates freely 360°; can be adjusted individually in angle, height, and swivel range
Adjustment	continuous

Stylish and practical holder for smartphones and tablets with table clamp. Holder accommodates devices from 10.2 to 13" in size, corresponding to a clamping range from 5.118 to 8.819". The brackets and mounting surface are coated with non-slip rubber for added stability and peace of mind and a gentle grip. Ball-shaped head allows infinitely variable, individual positioning. The extension arm rotates 360° and can be adjusted individually in angle, height, and swivel range. The clamping range of the table clamp is from 0.393 to 1.378". The clamp surfaces are coated with rubber, protecting the table from damage.
