Special features	with the help of this adapter you can easily balance out uneven surfaces, stairs, steps or sloped surfaces of max. 200 mm; if the surface is even, you simply leave the adapter in the initial position on the speaker foot
Material	steel

With the help of this adapter, you can compensate for uneven floors, stairs, steps or sloping positions in no time at all. The leveling leg is mounted one-time on one of the legs of the wind-up stand »3000« and secured with a clamp. The required length is infinitely variable and allows a height adjustment of max. 7.874". If no leveling is required, the adapter simply remains in the initial position on the stand base.
