The robust MDF tabletop with an attractive carbon-look coating is suitable for all X-stands with support tubes of ø 0.984 or 1.181" and a support depth of 13.779". With its generous dimensions of 17.716 x ", it offers enough space for controllers, mixers, laptop synthesizers and many other devices. Assembly is easy to accomplish. Simply slide the tabletop onto the keyboard stand and center it. No further fixing is required.
