19410

Clamp bracket

Product variant

19410-000-55 - black

Technical Data

Adjustment	continuous
Clamping range	up to 2"
EAN	4016842122479
Height adjustment	non-scratching locking screws
Length	13.78"
Material	steel
Max. load capacity	8.818 lbs
Quality level	
Spacing of holes	2.362"
Special features	inclination, alignment and height can be adjusted as required
Type	black
Weight	0.74 kg

The 19410 allows equipment to be installed on a desk or other surface using a clamp. Compatible with the Yamaha MSP3A powered monitor and MS101-4 compact speaker for multipurpose applications, the stand allows the position and angle of the speakers to be easily adjusted. This provides a high degree of freedom in installations and is useful in locations where the working space is limited.
