Base diameter	11.81"
EAN	4016842825479
Height	from 39.37 to 66.93"
Height adjustment	clutch
Leg construction	round cast-iron base
Material	steel
Quality level	
Rod combination	2-piece folding design
Special features	stable, heavyweight grey cast iron base; anti-vibration rubber insert for noise filtration; large support area provides great stability
Threaded connector	5/8"
Type	black
Weight	5.5 kg

The Heavyweight! This extra durable stand will fit perfectly in studios and on stages. The robust and tall tubing combination with the easy-to-use slim clutch can be adjusted to a height of 66.929‘‘ and as such is suitable for particularly tall people. The 11.811‘‘ diameter heavy cast iron base is extremely stable. The full-circle anti-vibration rubber ring in the base dampens the sound of footfall and reduces undesired transmission sounds. The stand with a total weight of 12.125 lbs is highly suitable to take an additional boom arm.
