Special features	with integrated mouth piece holder; one-piece item folds to a small size
Suitable for	baritone, tenor horn in Bb and alto horn in Eb
Type	black
Weight	2.06 kg

A tenor or baritone horn is supported safely and securely by this robust support stand. The functional instrument support incorporates a stable metal bracket wrapped in a particularly soft material to protect the instrument body. The integrated mouth piece holder is a useful extra. The lower instrument support is again a combination of stable metal and soft rubber profile. The instrument body is protected as it is held in position. The stand can be adjusted to a height suitable for the instrument using the continuous height adjuster. The one-piece, non-dismantable item folds to a small size.
