

21435 Speaker stand

Product variant

21435-177-55 - black

Technical Data

Visibility	
Rod combination	2-piece folding design
Number of legs	3
Special features	patented gradual height adjustment system; integrated shock absorber; adapter sleeve included
Leg construction	tube legs with cross braces
Max. load capacity*	110.231 lbs
Base diameter	45.28"
Type	black
*	With centric loading, on a horizontal surface and without lateral forces (wind, shocks etc.)
Height adjustment	locking screw with push-button system
Price display	
Height	from 56.69 to 87.80"
Quality level	
Material	steel
Tube end(s)	diameter 1.378"
Size when folded	45.28"

The standard speaker stand constructed from steel tubing has been significantly improved. The new legs with a tubing diameter of 1.378" and the large, fixed foot end caps guarantee stability and safety. Lasered bore holes and durable, robust plastic saddle washers improve the coefficient of friction between the legs and braces and prevent scratching of the finish. A compact clamp with a push-button system affords user-friendly stand height adjustment. The locking screw provides additional stability and vibration-free speaker mount. Additional features include a pull-out guard for the extension tube, the mounting aid and an integral anti-shock component.
