19671

Speaker tilt connector

Product variant

19671-000-55 - black

Technical Data

Angle of inclination	15°
EAN	4016842116034
Function	to slip on stand, to insert into speaker
Height	8.07"
Material	steel
Max. load capacity	55.116 lbs
Special features	adjustment range mounting bolt: 1.969"
Suitable for tubing diameter of	1.378"
Type	black
Weight	1.2 kg

Speaker tilt connector with 15° inclination attachable to speaker stands and distance rods with a tube diameter of 1.378". The depth of the tube intake is approx. 3.937". Due to the off-centre positioning in connection with the 15° inclination, the center of gravity of the speaker cabinet moves back to the centre and consequently provides more stability and steadiness for the stand or distance rod. The depth can be adjusted up to 1.969". The speaker mounting bolt has a diameter of 1.378" and a height of 3.307". Solid steel construction with robust powder coating. Convenient clamping screw for mounting on the speaker stand.
